

Wire Feedthrough Form

1) Operating Environment:

Please provide temperature, pressure, and medium: *(example: 50K, 100psi, Helium)*

2) Feedthrough Fitting:

Please provide size and type: *(examples: 0.5" NPT male, KF25, Conflat 1.33")*

3) Wires:

Please give each wire type its own line: *Example:*

Quantity	Size(awg)	Solid/Stranded	Type	Length Inside	Length Outside
5	20 awg	Stranded	Standard copper	1 meter	2 meter
2	12 awg	Solid core	Standard copper	1 meter	2meter
1	24 awg	Solid core	K-type thermocouple	3 meter	1 meter

Quantity	Size(awg)	Solid/Stranded	Type	Length Inside	Length Outside

4) Quantity of Feedthroughs:

5) Additional Information:

Special requests such as insulation type, color, voltage standoff, twisted pair, labeling, etc.
